S51M	1941	1942	Model 51M variant

Note: Rifles made for the Spiegel catalog company tended to have more deluxe features than standard grade, i.e. walnut stocks, curved buttplates, some single shots with stocks drilled for .22 cal ammo, pistol grip name-engraved identification medallions with duck/deer/bird dog medallions. We are unable to find any reference to the Mossberg-Spiegel connection after WWII. Spiegel also carried a line of Mossberg riflescopes.

Handguns

Montgomery Ward WesternField/Hawthorne Warrior

Due to the large volume of Mossberg-made rifles and shotguns made for Montgomery Wards under both the Westernfield and Hawthorne Warrior brand, this crossover will appear on www.mossbergcollectors.org Spring 2020. The M550 Model 500 models appear on page 7 of this chronology.

Note: Content of this publication is copyrighted and intended for members of the NMCA only. This publication may not be reproduced or distributed in any form, including electronically without permission of the NMCA.

With the introduction of the Brownie pistol in 1919, O.F. Mossberg began producing high quality firearms, accessories and scopes. Many of these fine specimens can still be found today, outperforming their expensive competitors.

Throughout the past century, Mossberg produced a series of over 50 bolt-action rifles, numerous scopes, sights and shotguns, each designed with the working man in mind and dedicated to the motto of "More Gun for the Money."

The National Mossberg Collectors Association was formed in November of 1988 with just a handful of folks interested in the collecting aspect of Mossberg arms and accessories. Today, we have over 1000 members in 46 states, including international members from Great Britain, Ireland, Belgium, France and Canada.

We invite you to join us today Annual dues are \$20, which includes new member kit, chronology, quarterly newsletters and resources for parts/sales.

Contact the NMCA at 636-937-6401 or vist our website at www.mossbergcollectors.org
